

VPAY E-payment System

“Providing smarter, faster payment options for B2B and consumers, at lower costs”

Vibizon Technology, Inc (Vibizon) is an artificial intelligence (AI) powered software-as-a-service (SaaS) company based in the Atlanta, Georgia area. VPay by Vibizon is an innovative technology and services company in the E-payments market with the capability of the leaders and the flexibility of the smaller, nimble companies in the market. VPay's value proposition is in its ability to go beyond standard payment processing and rapidly deliver cost-effective, personalized features to help meet customer's needs.

The comprehensive VPay E-payment System includes artificial intelligence (AI) powered expertise and applications that can be configured to meet the unique needs of individual businesses. The VPay E-Payment System provides a simple and easy user experience for your customers. VPay also has a Merchant portal for reporting and administrative applications for support, which have secure access by user roles.

VPay Offers easy, secure payments from anywhere!
